Latest news from CSR Europe

How responsible is your organisation in its digital transformation?

On October 10, CSR Europe members are gathering to investigate company practices and standards on 'Corporate Digital Responsibility' and the future of work. The working group will define various responsibility dimensions for the workplace in relation to digitalisation, data and automation. [Read more](#)

11TH OCTOBER 2018 // SOLVAY LIBRARY, BRUSSELS

Seats are filling up for this year's Sustainability and Innovation Conference!

The 3rd chapter of Sustainability and Innovation Conference series "Digitalisation & Work: ICT, Driver of Social Value" – organised by CSR Europe and Huawei – is all set to take place on 11th October 2018, at the Solvay Library in Brussels. This conference brings together 150 experts from businesses, politics, international organisations and NGOs to discuss the evolving role of ICT in the economy and its impact on productivity and employment. We will soon update our programme with the speakers. [Keep an eye on our agenda and register now!](#)

The Sustainable Development Goals

Sustainable Leadership through Collaboration

CSR Europe is gearing up for its **2030 Strategic Programme**. In order to discuss the possible direction for change in CSR Europe's strategy, we have kicked off a member consultation process. We are holding the first webinar "Sustainable

Leadership Through Collaboration" on 19th September. [Read more](#)

EU-German exchange on Sustainability Transparency & Performance

CSR Europe and [Econsense](#) invite their members to scale up corporate transparency and responsible behaviour. At the Roundtable '*Trends and Opportunities in Sustainability*' the aim is to enable

an EU-German exchange on sustainability policy making and transparency. During the session, key findings from the *European Commission Reflection Paper to Heads of States, Industry 2030 Strategy* and *EU Action Plan on Sustainable Finance* will be presented. How can we ensure policy coherence between EU and national levels? [Read more and register](#)

People

Moody's: Empowering women with financial knowledge

SMEs are key drivers for local job-creation and positive social change. Moody's launched a new initiative aimed at small-business owners – especially women entrepreneurs. The goal is to provide insight into what the financial sector expects from these women and how they are assessed in

terms of getting credit. [Read more](#)

Circular Economy: What are the enablers and barriers?

CSR Europe and the other partners of the R2π project have published a report on the enablers and barriers of a circular economy. By presenting stakeholder views on what influences the transition from linear to circular economy business models,

the report provides an insight into the main drivers and obstacles of the transformation. [Read more](#)

Does your company want to advance human rights in its operations?

The *UN Guiding Principles on Business and Human Rights (UNGPR)* have encouraged and guided companies to adopt policies and due diligence processes to further respect human rights across their value chain. With the support from our National Partner Organisations (NPOs) a new round of local

training sessions is starting in September and will go on until early 2019. [Read more](#)

Introducing a Podcast Series on Capacity Building for Sustainable Supply Chains

CSR Europe has gathered three unique and different good practice examples from our corporate members in our new podcast series. In the 10-15 minute episodes, each of the three podcasts provides deep insight in the chosen companies' strategy approach to gain capacity building along their value chains. [Read more](#)

Automotive & Electronics: Enhancing sustainability in the supply chain

The '*Material Change*' report by Drive Sustainability and the Responsible Minerals Initiative (RMI), assesses the importance of 37 materials to automotive and electronic industries. Evaluating *environmental, social and governance* risks for the materials at industry levels the report sets the basis for future collaboration to enhance **sustainability in**

the supply chain. [Read more and download report](#)
